

A CHURCH WEBSITE THAT CONNECTS WITH YOUR COMMUNITY

INSTALLATION FROM ONLY **\$1600**

You need a church website that impacts and invites your local community.

Put your best foot forward, and connect with both new and existing visitors through a custom designed and developed website. Your visitors will get a great first impression no matter what device they're using.

This church foundation package includes:

HOME PAGE

Make an instant connection with your site visitors, to welcome them and help them get to know more about you and your community.

CONTENT PAGES

Let people know about your service times, your community programs, your staff team and more. Create as many pages as you need to share your story.

SERMONS & EVENTS

Easily update your site content. Post weekly sermons and let people know about upcoming events. Help your users stay connected to the life of your church.

ALL WITHIN WORDPRESS!

Take care of all your own content, and update it as often as you'd like, with WordPress's easy to use content management system.

NEED MORE?

Extend your site's features and functionalities, from member portals to automations. We can help. Future proof your website solution.

Our team will work personally alongside you to craft your site

1 Collaborate with your UX & Design Lead

2 Work with your developer to build your site

3 Recieve training and coaching around site use & maintenance

4 Count on our team for ongoing support when you need it

Jacques Nel
Elder at
St Luke's
Presbyterian
Church Roseville

Every time we click on the link to our new website we get a feeling of joy at seeing the beautiful, functional and professional home page. The website not only works well - containing all the information anyone needs or wants at their fingertips - but it looks really great too. Everything from the buttons to the custom designed logo fit into a unified theme which brings out the character and spirit of our church.

I am very happy to say that within the space of a few weeks we have already had a new family join us, saying that the website was the direct cause for their visiting. The website has been designed so that we can customise and update the parts we want to update, but not so that there is a burden of maintenance work. We simply spend a few hours every month or so to input all the coming events, then they automatically update as time goes by. At any point in time, a website visitor will see the latest up to date information without seeing all the old stuff. The staff at Brown Box are always helpful and it truly has been a joy working with them. We are looking forward to working with them closely in the future on new projects.

Create a website today that you can control, and allows you to connect with your community
